AL PLAYS SANTA TO HIS "GANG"

Governor Al Smith, of New York, who figures as a prominent candidate at the coming Democratic convention, is shown distributing presents to poor and crippled children of New York's East Side at a "party" staged by the "Foster Mothers' Society."

WOMAN IN RACE FOR GOVERNOR

Texas Wife Becomes Candidate to Vindicate Husband

TEMPLE, Texas.—(By Associated Press)—Fighting for vindication of Texas voters, Mrs. Miriam A. Ferguson, wife of former Governor James E. Ferguson, has launched her candidacy for the Democratic nomination for governor.
With Ferguson, who was impeached by the state senate in 1917 at the beginning of his second term as governor, frustrated in an attempt to seek office again, his wife has entered the political arena as the family standard bearer.
The first of her sex to seek a gubernatorial office, Mrs. Ferguson formally opened her campaign yesterday with an appeal to citizens to support her so that the family name may be cleared, and as a rebuke to the senate that voted her husband's impeachment.
In a statement she said that she was adopting the platform announced by her husband before the courts ruled that he could not be a candidate and with a promise to carry it out, asserted "He will help me to give the people of Texas the best administration that our ability, tempered with love and gratitude, can produce."

FINGERPRINTS TAKEN IN HUNT FOR GUN THIEF

DETROIT.—Police have obtained fingerprints of all employees in the house and about the grounds of the residence of Edsel B. Ford, president of the Ford Motor Co. in connection with the robbery of \$100,000 worth of jewelry Saturday night. The robbery was made public late yesterday by police. Clear fingerprints were left by the thief, according to police.
The jewels, in a silver case, included a pearl necklace of 205 beads set with a platinum clasp set with a one carat diamond valued at \$67,000, a pearl necklace of 103 graded pearls with a platinum clasp set with a one half carat diamond, valued at \$27,000; Mrs. Ford's wedding ring, a platinum band of scroll design; a guard ring encircled with one eighth carat diamonds and a gold octagonal clock.

FLIGHT IS DELAYED BY UNFAVORABLE WEATHER

MINEOLA, L. I.—Lieutenant Russell L. Maughan, announced today that he had decided not to fly his dawn-to-dusk transcontinental flight from Mitchell Field to San Francisco tomorrow morning. He said he might hop off Saturday.
The postponement was the result of a report of unfavorable weather condition in the west, especially in the Mississippi valley.
"I am absolutely confident of success this year," Lieutenant Maughan said. "My plane is new. I am the only man who has flown it and I have not taken it up much. The sooner I can get away the better I will like it."

LEAPS FROM 4TH STORY OF HOSPITAL

Mind Believed Unbalanced by
Nervous Breakdown

ILL FOR TWO MONTHS

Gained National Reputation
as Authority on Jurisprudence

COLUMBUS.—(By United Press)—Judge R. M. Wanamaker of the Ohio supreme court, committed suicide today by leaping from the fourth story of Mount Carmel Hospital, where he had been confined, following a nervous breakdown.
While his nurse was out of the room, Wanamaker went into the bathroom, turned the key in the lock, started the water running in the bath tub and then raised the window and leaped out.
The judge was dead when picked up on the ground below the window.
Dr. R. L. Barnes, his attending physician, said the judge's mind was probably unbalanced by his nervous malady. He was 58 years old.
The judge suffered a nervous breakdown two months ago, according to Dr. Barnes, and was confined to his home. On June 12, he was removed to Mount Carmel Hospital.

CROSSING MOVE IS ASKED

D. T. I. Expansion Program
Near Lima Believed Ready

An application filed Wednesday with the county commissioners by D. T. & I. railroad officials, in which permission to move a grade crossing in Early rd. is sought, is regarded as the initial step in construction of yards and terminals north of Lima.
Commissioners are to meet with D. T. & I. engineers Wednesday night to discuss the plans for moving the crossing from its present location to a point some distance east.
The railroad also is said to desire permission to tear down a high bank at the present crossing to be used for a fill at the new crossing.
A representative of the National Quarries Co., which owns a tract south of the railroad, is to be present at the meeting.
Title to a triangular tract north of Early rd. and between the D. T. & I. and B. & O. lines was investigated by a representative of the former railroad several weeks ago.
The railroad is known to have acquired options on a new right of way east of the present tracks.
Plans for moving the crossing, commissioners believe, are preliminary to the gigantic scheme for development of yards and terminals in that vicinity.
Changing of the location of the crossing will eliminate a curve in the tracks and provide space for double tracking the line.

LIMA IS WINNER

Lima station of the Toledo division of the B and O. Railway annexed first honors in the safety campaign during May to reduce the number of accidents on the road. Toledo division ranked third on the system.
Tabulation of the campaign shows that with \$23,311 working hours put in on the western line only four accidents were recorded, averaging 231.00 hours per accident, substantiating the statements of officials that practically all accidents are preventable.
In celebration of the honors reaped by Lima and Toledo division the company is arranging for a big reception and dance the latter part of the month at Dayton for all employees. The silver loving cup won by Lima will be on display and after the reception it will be sent to all stations for inspection.

NORTH CAROLINA PRESENTS—

As long as there are beauties there will be contests to select them, it seems. Hence, Miss Allyn King, of Raleigh, N. C., chosen in a North Carolina contest.

BODY READY TO KEEP TAB ON CAMPAIGN EXPENSES

WASHINGTON.—The senate committee authorized to investigate campaign contributions and expenditures this year plans to establish headquarters in Chicago and to keep a continuous check on these during the active period of the campaign when it will meet at the request of any of its five members.
After selecting Senator Borah, Republican, Idaho, as chairman, the committee, at an organization meeting yesterday, decided to call on party campaign managers for reports every ten days on expenditures and sources of funds, including the names of contributors.
It was further decided that the committee would seek voluntary information on plans for raising funds and the names of those expected to contribute, although Chairman Borah explained there was no authority to compel such reports.

POISON TAKEN BY WOMAN

Despondent Over Death of
Child, Death Expected Hourly

Mrs. George Romshe, 30, lies in St. Rita's hospital at the point of death—the victim of bichloride of mercury tablets taken Saturday night with suicidal intent, hospital attaches say.
Ill health and despondency over the death of her only child one year ago are given as the causes for the woman's attempt to end her life at the home of her sister, Mrs. Edmund Matthiae, 910 Rich-ave. The woman is alleged to have admitted to a physician that she took several chlorides of mercury tablets shortly before she was found by her mother, Mrs. Stoner, who was alone in the house with her.
Mrs. Romshe never fully recovered from the shock of her child's death and for several months she has been brooding over the loss and her ill health. Several weeks ago she suffered a nervous breakdown.
The woman's husband has been working in Springfield and for weeks she had been living with her father-in-law, Jacob Romshe, Hume, until her visit to Lima to see her mother and her sister, Mrs. Edmund Matthiae Tuesday the woman's condition took a gradual turn for the worse and hospital authorities report her condition is grave with death expected hourly.
LENZ REAPPOINTED
CINCINNATI.—Carl W. Lenz, United States commissioner at Dayton, was reappointed temporarily by United States Judge Hickenlooper to serve until his successor can be obtained. Commissioner Lenz' term expired yesterday. Attorney John W. Kalbfus, Dayton, has been mentioned for the appointment but declined to accept it on account of business pressure.

FAILS TO GET BUSINESS, FREIGHT AGENT DECLARES

CURB IS PUT ON
LOUD SPEAKER

NEW YORK.—(By Associated Press)—A radio loud speaker, operating until a late hour in the evening, was today declared a public nuisance by Magistrate Gresser.
Augustine Ester, owner of a Jamaica radio shop, was convicted of disorderly conduct.
Magistrate Gresser suspended sentence on promise to put up the loud speaker at 9 p. m., in conformity to a city ordinance requiring peddlers to cease shouting their wares at that hour.

KIDNAPED GIRL RESCUED

Returned to Her Detroit Home
by Detective

HELD PRISONER FOR WEEK

Threatened With Death in
Notes Demanding Ransom

DETROIT.—(By United Press)—Seven-year-old Gina Coral, kidnapped a week ago Monday, is back home today.
Making good his promise, Detective Inspector Bert McPherson rescued the girl from kidnappers late last night after pursuing their automobile and forcing them to surrender the child.
Gina was thrown out of the machine and as a police car stopped to pick her up, the three men in the kidnappers' machine sped away and escaped. The girl was unharmed.
McPherson promised yesterday he would recover the child that night or quit.
Meanwhile, a relentless search goes on for the three kidnappers. Two suspects are held and McPherson, who is head of the Italian squad, is hoping to have all three behind the bars tonight.
The last letter received from the kidnappers by the father, Edward A. Coral, candy store owner, was a threat to kill the child and leave her head on Coral's doorstep unless he dropped \$1,000 from a taxicab at a spot named by the kidnappers.
McPherson and his men, however, were making a last desperate effort to save Gina. He followed up a "hot tip" took three police flyers 15 miles west of the city on Michigan rd. and waited.
A touring car speeding toward Detroit was sighted and the police flyer started up in pursuit.
When the officers began firing at the tires, the fleeing machine slowed up and Gina was tossed out.
The happiness of the Coral, hounded for a week by threatening letters and mysterious telephone calls, was without bounds.
A huge crowd of their Italian neighbors greeted McPherson as he came back to the little candy store with the child.
The hiding place where the kidnappers concealed the girl was a farm west of here, according to police. She had been threatened with death several times, but came back home uninjured.
Many of the letters and calls that came to the stricken family were "fakes," police said, as more than one person attempted to extort money from Coral by playing on his love for his child.

RACE AGAINST DEATH LOST

Pennsylvania Man Swallowed
up in Quicksand

WIKESBARRE, Pa.—(By Associated Press)—While his wife and children looked on helplessly, rescuers tried in vain yesterday to save Anthony Antanartia as he sank slowly in quicksand in the rear of his home in Swingersville, three miles from here.
For two hours neighbors with shovels kept pace with him as his body was drawn into the sand. The best they could do was to keep his head free.
As fast as the sand was taken out he would sink lower. Finally the quicksand covered his head, smothering him. Rescuers sank a wooden barricade around his body and it was removed. Physicians stood by with pulmotors but could do nothing.

Crossing Menace Traced to Grudge of Railway

CONTINUED WARFARE SEEN

Conditions in Streets Held
Worst in State

Municipal campaign for elimination of grade crossing dangers in Lima, which are held by Commissioner Harold Cunningham as the worst in the state, received a decided setback Thursday with charges by L. B. Colbert, freight agent and paymaster of the B. and O. Railway, of a conspiracy of city officials to deprive the B. and O. of city business.
Refusal of the utility to meet the city's safety demands until some accordance in freight shipments is tendered the B. and O. by the city was intimated by Colbert in conference at city hall with City Manager C. A. Bingham and Commissioner Cunningham. Colbert told officials that: CHARGES MADE
Contractors working on city contracts told him that pressure had been brought to bear on them to receive their freight on other utilities other than the B. and O. Railway.
The city took away from the B. and O. the shipments of coal and paying materials to satisfy a personal grudge.
"Higher ups" of the railroad feel there is a conspiracy of Lima officials and contractors to discriminate against the B. and O.
The city's business has been taken away from as to satisfy a personal grudge," Colbert told Bingham and Cunningham in discussing the company's repeated refusal to repair crossings in Lima despite the flood of protests aired by Manager Bingham and city commissioners over the deplorable condition of the crossings, especially at North-st., High-st. and Market-st., where approaches are full of holes, and on the tracks the level boards have been worn several inches below the surface of the tracks.
"Higher ups in my company believe our road has been slighted by the city in freight distribution," Colbert said. "The only way to reach an understanding is for the city to show a different attitude."

WARFARE IS WAGED

Continual warfare waged by the city against grade crossings of other utilities beside the B. & O. has never materialized beyond a continual exchange of correspondence and a conference here between I. A. James, general superintendent of the B. and O. Railway, and City Manager Bingham, at which James promised Bingham that all crossings in the city would be repaired, claiming that at least two weeks time would be required before material could be shipped here to start the work, which has never been started.
Lima grade crossings are death hazards. Deep cuts are found between the tracks, many approaches are filled with ruts and lack of level boards between the rails endangers motorists in passing over the crossings which are exceptionally dangerous at principal trafficked streets in the city.
One year ago city officials after a survey of railroad crossings pronounced the B. and O. crossings as the worst in the city. Safety campaign inaugurated immediately afterwards had the support of commissioners and promises received from utilities' officials toward danger elimination failed to materialize.

HOME IS BOMBED

Explosive Planted Under Ken-
tucky Minister's Residence

NEWPORT, Ky.—(By Associated Press)—A bomb was exploded early today in the cellar of the home of Rev. William F. Gregory, pastor of Grace Methodist Episcopal church, who for several months has been active in a campaign against lawlessness in Newport and nearby Kentucky municipalities. The damage was slight.
Rev. Gregory reported he had received numerous anonymous telephone calls threatening him with harm unless he discontinued his campaign and yesterday received an unsigned note which read:
"You better quit making grand jury investigations or something will happen."

3RD PARTY MEET NEAR COLLAPSE

Double-Crossed by Communists, Farmers Declare
ORGANIZERS MAY BOLT
Row Threatening to Break up
St. Paul Convention

CONVENTION HALL, ST. PAUL, Minn. — (By United Press) — The "third party" convention skated near disintegration here today because of secretly developed power of the communists.

Farmer-Labor organizers of the movement, which was to have swung a new national party behind Senator Robert M. La Follette, announced they would quit and close the hall before night if the communists carry out their plans which now seem likely.

All preparations have been made for the farmer delegates to walk out.

In a conference lasting until the early hours this morning, the men who organized the convention, made their decision.

TECHNICAL POINT
The showdown is expected during the day over the question of following La Follette. The technical point will be whether to put forward an independent third party ticket now—as the communists desire—or wait until La Follette has announced his candidacy—as the farmers had planned.

There are few persons on either side of the fence who are not now fearful that the communists have secured a strangle hold on the convention by unscrupulous clever and skillful stacking of the delegates.

Coming here three days ago, the communists pleaded that they were in the minority and had a block of only ten votes. They asked only to be carried into the convention as a minority. They said they wanted to get in the boat and row in unison with the others. They claimed it would be a "breach of faith" to force them to come in as trades union delegates, as the organizers of the convention reversed their previous decision in order to preserve peace. They let the communists in as representatives of their party.

FORCED ADJOURNMENT
William Mahoney, the quiet-mannered little man who dreamed this whole dream of organizing the discontented middle west, was absolutely confident that the communists had only their ten votes until it came time to vote upon adjournment last night.

Then the communists for the first time showed their teeth and forced the convention to adjourn over the vigorous protest of Mahoney, and the other "conservatives."

"They have double crossed us," Mahoney told the United Press today. "We have a final hope. We may be able to muster enough strength today. Many of our votes voted with them because they did not understand the situation."

"But if we do not beat them, we will leave them flat."

The communists accomplished their newly revealed strength by stacking the trade union delegates. While there are only ten communists registered as such, there are scores hidden in state delegations. Some communists were placed among the farmer delegates. They were slipped thru the unsuspecting credentials committee and now are recognized on the floor where they follow the leadership of Joseph Manley, acting communist floor leader.

In an effort to counter this skilled machine organization of the communists, the Minnesota conference decided this morning to appoint a floor leader who will do what may be their "last stand."

No matter what happens, the farmers are all for La Follette and they will all work as a unit to advance his candidacy, Mahoney said. Mahoney regrets now that he did not stick by his decision to oust the communists. If this had been done in committee where it could have been done, the communists would not now be in their present position.

"I want to treat them fairly," Mahoney explained. "I wanted them to have every right that was due them, but they have taken advantage of our kindness."

It was just this development that La Follette foresaw in his recent letter, denouncing the convention for its association with the communists.

While the convention leaders sought to find some means of retaining a vestige of their party, the communists last night gave a banquet to the delegates which drew a larger crowd than the farmers' conference.

If the farmers walk out, the communists will not be permitted to continue their meeting in this town. The hall is being used by courtesy of the St. Paul Association of Business Men.

When Mahoney walks out, the hall will be cleared—by the police if necessary—and the doors will be locked.

Then the movement for organization of the National Farmer-Labor party will be where it started before this political sortie.

TOLEDO WOMAN DIES
AT LOCAL HOSPITAL

Mrs. Mary S. Mell, 64, of Toledo, died Tuesday at St. Rita's hospital after an illness of one week from meningitis. She was visiting relatives two miles north of Cairo when she became ill.

The body was removed to the home of her daughter, Mrs. West, Courtland-av. Funeral services will be conducted Friday at 1:30 p. m. at the First Christian Church in charge of Rev. F. Hammond. Interment will be in Woodlawn cemetery.

SCREEN ACTRESS GIVES UP FAME FOR HAPPINESS

MARGUERITE CLARK WHEN A FILM STAR

Marguerite Clark Now Playing to Audience of One—Her Husband

BY MARGUERITE CLARK
Famous Stage and Screen Star Who Has Retired and Is Now Mrs. Harry P. Williams

PATTERSON, La. — (Special) — I have given up fame for happiness.

No longer do I see my name in the lights of Broadway or Hollywood. The millions who once watched my acting have, perhaps, largely forgotten me.

Thru trains do not stop at the town where now I live—thru town past, Hollywood-bound, and I have no regrets. Only the slow locals pause here.

But I am playing my greatest role, the greatest role in any woman's life. I play to an audience of one—my husband—in a theatre, which is my home.

RAISES CHICKENS
Less than six years ago we were married and retired to this Louisiana home. I play to an audience of one—my husband—in a theatre, which is my home.

My only regret is that I know so little. I wish, when a girl, I had learned all the duties of a housewife. Sometimes I send the servants away just to see what a good time I can have. And while the food may be a little hard on Mr. Williams, I certainly enjoy myself.

What a contrast between the rush of movie life and the ease of the home!

One day on a movie lot producing a big picture is more exhausting, requires greater exertion and takes a greater toll of physical and mental stamina than weeks of toil as a housewife.

HOMIE MORE BEAUTIFUL
You never can be your natural self. You sometimes have to portray characters that are not pleasing to your sensibilities. There is never any rest.

In the pictures we become overly ambitious. We forget the gentler, kinder sides of life. All our efforts seem directed to seeing our names in big type and bright lights.

In the home a woman's work is a labor of love. Her ambition is to please those who surround her. No work seems hard. There are no late hours, except on special occasions. And when a woman is tired she can rest.

The construction of a home is more beautiful than any scenery ever painted. It is something real. A picture at best lasts only a few years, but what we do in the home—on and on—endures.

HER OWN FLOWERS
In the pictures and on the stage I received many flowers, but they usually were bought from florists. Here at home I raise my own flowers. I see them grow from tiny seed. I see the rain fall on them and the sun smile on them. They are part of me.

My pets, growing from tiny things to maturity, also feel to be a part of me. I see my husband and my friends happy.

Of course, if a girl wants to slave, if she wants to suffer the pangs of ambition, if she wants to fight temptations, if she has genius, beauty, money to be independent and the stage and movies call her, I say give it a trial.

But always look in the future because some day in the life of every woman the happiness of home will bloom and she should be ready to go.

OFFICERS ARE SEEKING
YOUTH, MISSING 3 DAYS

WAPAKONETA — Local officers are looking for Earl Carter, 17, who has been in the limelight in recent weeks following his escape from the Lima Jail. The youth, who had been employed at the Wm. Freyman home east of this city as a farm hand since he was proted by officer J. B. has been missing since Sunday. A reward of \$40 in cash is also missing from the Freyman home. The boy left Sunday to visit relatives, he said, and did not return. The theft of the money was discovered when Freyman opened his purse Tuesday afternoon.

JUDGE LEAPS TO HIS DEATH

MRS. HARRY WILLIAMS, HAPPY HOUSEWIFE

death will be filled by appointment by Governor Donahy.

The appointment, however, will be for the period only until the November elections, when a successor to fill out the rest of Wainwright's term will be elected. His term expires January 1, 1935.

The vacancy means that the voters of Ohio will now have to choose three judges in November, two for six-year terms and one for the "short term."

DEATH PLUNGE
Mrs. Mildred Ewing, serving her second night as Judge Wainwright's nurse, said her patient arose at 5 a. m. and went into the bathroom. She followed to the door, but the judge slammed the door in her face and shot the bolt. She heard him turn on the water in the tub and fearing that he might attempt to drown himself, she started battering against the door and demanding that he let her in.

Meantime a truck driver reported to the hospital office that a body was on the sidewalk outside. The judge had climbed upon a radiator in the bathroom in order to reach the window, which was opened only about 18 inches.

The death plunge was really six stories as there are two "basement" stories to the hospital below the regular floors.

Coroner Murphy said he found nothing among the judge's belongings to explain the suicide.

Dr. Murphy took possession of a letter in the judge's handwriting dated June 1. It read: "My petition for the Republican nomination will be filed in a few days."

Apparently this petition was forgotten by the judge, or he changed his mind, as he did not file his petition as a candidate for re-election, announcing in stead that he could run on an independent ticket.

Altho the judge's home was in Akron, he had been living with Mrs. Wainwright at a hotel here since 1912.

Mrs. Wainwright was prostrated with grief at the hotel today.

FAREWELL MESSAGE
Three days before his death the judge dictated a farewell message to his wife.

The message, given to P. W. Heacock, chief stenographer of the supreme court, who visited the judge Sunday at the hospital. Heacock said he was confident that at the time the message was dictated, the judge did not contemplate suicide.

THURSDAY DONAHY
COLUMBUS — (By Associated Press) — Characterizing the death of Supreme Court Justice R. M. Wainwright as a "blow to the common people" Governor Donahy in a formal statement declared that to the Akron jurist "more than anybody else belongs the credit of humanizing the supreme court of Ohio."

The governor's statement follows:

"To Judge Wainwright more than anybody else belongs the credit of humanizing the supreme court of Ohio. He waived legal technicalities and used common sense methods in arriving at the right and wrong of controversies. His death is a blow to the common people of Ohio."

LAUDED BY HIS
FELLOW JURISTS

COLUMBUS — (By Associated Press) — High tribute was paid to Judge Wainwright both as a private citizen and as a jurist by his six fellow members of the bar in a statement issued by them today. His untimely death, they said, left his fellow members in "no frame of mind to fittingly and adequately express our feelings and our sense of loss."

After reviewing his early life, the statement declared that Judge Wainwright "possessed the highest ideals and advocated and lived up to the highest standards of citizenship."

He possessed no denominational creed, yet he was profoundly religious in the sense of a belief in a Supreme Being and faith in the divinity of Christ. He was a close and analytical student of the Bible and frequently quoted Holy Writ in support of his theories in deciding controversies."

Touching upon his temperament, the statement asserted he "had a philosophy of life which involved him in much controversy and made him subject to criticism from the part of those who disagreed with him, and yet all men, including not only those who entertained the same beliefs, but including those who differed with him, had a firm conviction of his honesty of purpose, his sincerity and his integrity."

The one quality which distinguished Judge Wainwright above others as a jurist, according to the statement of his colleagues, was his "innate sense of justice" in his opinion often discussing legal questions "upon principle without resorting to authority. He did not permit himself to become lost in the labyrinths of the law nor stand upon mere precedents however gray."

In his continuous fight to correct what he considered the greatest evil of the judicial system, delay, he often expressed his feeling on the matter in the sentence "Justice delayed is Justice denied."

The statement asserted that Judge Wainwright's name will rank with the greatest of those who have given distinction to the Ohio supreme court bench.

BEAUTY IS HELP TO POLITICIAN

Recipe for Successful Woman
in the Game Found

BY DOROTHY SHUMATE
NEW YORK — (By United Press) — Found: The recipe for a successful woman politician.

Page Mrs. Emily Newell Blair, vice-chairman of the Democratic national committee for the finished product.

Here are the ingredients: Beauty, cleverness, attractive clothes.

To beauty—the more the better—add as much cleverness as desired. Then add the dress—well selected, preferably the imported variety. Home grown is acceptable, but must be very carefully selected. Then you have the properties.

Doesn't sound very intricate—but try and make it.

The Democratic women's organization did. Result—nearly 500 women politicians at the national convention. All successful.

Beautiful women make better leaders than their plainer sisters, the powers-that-be agree. For contrary to the current belief, men like to take their politics from someone easy on the eyes, so to speak. Many's the political meeting which owes its success to speakers' reputation for "lovely looks." And many's the woman who has attended those meetings through this feminine weakness and has left an avowed follower of the school of Democracy.

Feminine politicians today admitted this, but they wouldn't be quoted.

Consequently, Mrs. Blair, herself the loveliest of them all, points with pride to the steady influx of Democratic women in New York a living tribute to her organization and women's position in politics.

DIXIE HIGHWAY
IS MARKED

White Poles Will Guide Motorists in Future

Residents of Allen-co in the future will have little trouble telling strange motorists how to cross the county on the Dixie highway.

"Just follow the white posts," will be all the directions needed.

All telephone poles along the highway are being painted white to a distance of six feet above ground. The work is being done by the state highway department, and is completed from Lima to Beavertown. R. W. Fry, district maintenance engineer is in charge of the work.

Poles south on the Dixie will be taken care of later. Whittening the poles not only improves the appearance of the highway, but marks the road in such manner that no one even on the darkest night can lose his way.

Signs and advertising matter is also being torn down along the state roads, when located in such a manner as to obstruct the view of either the road or surrounding scenery.

Abolition of the sign boards and painting the poles along the road, is being carried on by the state highway department thru-out the state, according to Fry.

STORM COMING!
SKAT WORRIES

Skat is bewildered. He doesn't know exactly how to act. The weather man has him guessing.

Tuesday night the feline procrastinator hid himself in a barrel to escape the predicted thunderstorm for Lima, but the storm failed to strike here.

Wednesday morning he crawled out and stunted around only to learn that thunderstorms are predicted for Wednesday night and Thursday. Skat is of the opinion that the storm that missed us Tuesday night will be doubled in fury when it does strike.

SUMMER STORIES CHILDREN

Boys and Girls Grow Faster in
Autumn of Year

NUTRITION IS PROBLEM

Girl's Development is Faster
Than Boys Report Says

NEW YORK — (By Associated Press) — Young children between the ages of four and 12, both girls and boys, grow faster and better during August and the three following months than at any other period of the year, according to the results of a careful study into the question of child nutrition made by the New York Association for Improving the Condition of the Poor.

Boys make 53.3 per cent and girls 55.8 per cent of the total gain between August 1, 1933, and August 1, 1934. The period of maximum gain being in the late summer and early fall, the period of minimum advancement falls in the late spring and early summer.

While the same tendency holds for both boys and girls, it is most marked among the latter.

The report of this investigation reads in part as follows: "The rate of growth in both height and weight over a given period of time is quite as important in judging a child's state of development, as his attained stature and weight at any given period. Physicians, teachers, school nurses and nutrition workers must rely on the gains made during short periods of time three to six months to determine whether the child is developing well, for obviously all healthy children must be expected to gain steadily in both height and weight."

1,000 RECORDS TAKEN

"The usual procedure has been to assume that the difference between the average height and weight of children of one age group and the children of the next age group indicates the rate of gain which all children within the given age period may be expected to make. To determine the expected gain for any portion of the year, say for one month, the procedure is to take one-twelfth of the annual expected gain to determine the monthly expected gain. At best this method is very imperfect for it leaves out of consideration retardation and acceleration, which largely determine the rate of gain."

To reach its conclusions the association made records of the successive weights of 1,000 children. This study is one of a series being carried on with funds given the association for the purpose of providing the basis of more effective public health and relief work by filling in the gaps in existing basic information. Whether climatic conditions affect this seasonal variation in growth is soon to be determined.

\$1,056.96 VERDICT IS
AWARDED BY JURY HERE

Frank R. Cotner, Lafayette banker, was awarded judgment for \$1,056.96 by a common pleas court jury Wednesday in a suit against Clyde Snyder, Jackson-town farmer. Snyder borrowed money from Cotner's bank and was unable to pay.

He was not in court to contest that case and Judge Becker instructed the jury to find for Cotner. Members of the jury were: Mrs. Grace Akin, Mrs. Harriet Fraunfeiter, T. H. Shert, Peter Miller, H. F. Clausen, J. D. Roush, James Porter, J. W. Cochran, H. B. Kratzer and Stelm Marshall.

HUSBAND ENJOYED NIGHT LIFE, WIFE DECLARES IN DIVORCE PETITION FILED

Night after night Paul Wharton was out until 3 and 3 a. m. enjoying pleasure, while his spouse, Mrs. Elsie M. Wharton, was at home alone, she avers in a divorce petition filed in common pleas court Wednesday.

Mrs. Wharton also avers her mate of failure to provide her with sustenance, clothing and with moving from one place to another too frequently.

Hardly would they get settled, she says, when he would change jobs, or lose the one he had. Another move would follow.

The two were married in Monroe, Mich. in 1916. The wife asks the court to restore her to her former name, Elsie M. Routsen.

COAL THEFT CHARGED; TWO PERSONS ARRESTED

CABLE DIFFERS WITH FESS

Congressman Assails Weakness of World Court

PRESIDENT IS PRAISED

U. S. Senator Sees End of Wars Thru World Justice

Attacking the weakness of the World Court—its inability to enforce its decrees—Congressman John L. Cable Tuesday night at a meeting of the Brotherhood of Trinity M. E. church repudiated many of the arguments on the World Court of International Justice as set forth by Senator Simeon D. Fess, of Ohio, the main speaker on the program, who talked on "The Judicial Settlement of International Disputes."

"The World Court would probably be practical if judicial settlement would put an end to an international dispute, but judicial settlement will not always do that. Some time or other a country will balk at the Court's decision, refuse to comply with it, and what power will the Court have to enforce its decrees?" Cable asked. "There is no concession made by the Court for an army to enforce its decrees as our United States courts enforce their decrees by officers of the law."

WAR PREVENTION
Cable is also of the opinion that the United States itself would not abide by the decision of the World Court on questions submitted to it, such as immigration, Panama Canal tolls, the settlement of the eleven billions of European debt, and similar questions of purely American character. "We would either have to abide by the decree or else repudiate the Court," he said.

"Causes of the war simply cannot be erased," Senator Fess said in his speech. "We will always have them with us—sovereign rights, national policies, and the like. Therefore, we must have an international Court of impartial judges that will thresh out the problems, not in the shrewd, diplomatic way where one nation tries to get the better of the other, but in a just, straight forward manner, because arbitration never definitely closes an argument while justice does."

Referring to the prohibition amendment, Fess stated that "it is in the Constitution to stay and will never come out." He lauded President Coolidge's action in asking Congress for an appropriation to build specially equipped boats to run down the rum runners. "If we can stop the importation of liquor into the country, we can more successfully cope with the situation internally," he stated.

Eugene Lippincott, prosecuting attorney of Allen Co. and president of the Trinity Brotherhood, presided at the meeting, at which more than 200 members attended.

RICH, BELOVED, YET UNSPOILED

MARION TALLEY

KANSAS CITY, — (Special) — Thousands of persons have called her a genius.

Offers of stage engagements have been thrust upon her. Wealth has been piled at her doorstep.

Yet Marion Talley, 17, is just like any other girl of her age, perhaps less a flapper than many. With thousands of dollars a year placed at her disposal, Marion remains a simple northwestern child, helping her mother with the dishes in the evening.

FATHER TELEGRAPH OPERATOR
A few days ago she used rouge for the first time, and then it was because she was to appear before 8,000 persons in a strong calcium light.

For Marion Talley is a singer. She's going to be the greatest in the world, Kansas City folk think. They discovered her two years ago. Her voice astounded music lovers. They predicted a glorious future.

Then it was learned that her father, a \$150-a-month telegraph operator, could not afford a vocal education.

FRIENDS PAID TUITION

year was raised at a concert upon her return.

"I like to have my old school chums call on me," she says. "Yes, I'll marry some boy some day, but not for a long time."

Yet the praise and patronage has left her unspoiled. She has rejected a \$2,000 a week vaudeville offer. She holds true to her ambition to become a great opera singer.

"The thing I liked most about New York were the rides on the motor busses," she said.

100 WOMEN NOW IN CLUB

Miss Day Named Head of Business Organization

Miss Marietta M. Day was unanimously re-elected president of the Business Professional Women's club at a meeting held Tuesday evening at the Hotel Argonne.

Mrs. Jennie B. Eger was chosen vice president; Misses Ruth Keating and Genevieve Blair recording and corresponding secretaries respectively, and Miss Florence Smith was elected treasurer.

Twelve new members were voted into the club, bringing the total membership to 100. They are Elsie Lyman, Lila R. McIntosh, Esther Roberts, M. Kate Dille, Anna Kondricks, Mrs. Bessie Copeland, Margaret Nash, Donna Ryrie, Ann Hamilton, Mabel Kauffman, Mary I. Wilson and Angela Carriage.

It was announced by Miss Day that the large basement room in the hotel has been donated to the club in which to make their headquarters. A committee will be appointed soon to make some arrangement to raise fund to furnish the room.

TAUGHT IN LIMA

Judge Wanamaker Once in Local School Faculty

Friends of Justice R. M. Wanamaker of the Ohio Supreme court who died when he leaped from a window of a Columbus hospital Wednesday while suffering from a nervous breakdown, were shocked to learn of his untimely death.

Judge Wanamaker had a host of friends here, particularly among the legal profession. The fact that he taught school here in the early nineties made him particularly well known to many of the older residents.

Among his particular friends in Lima is S. S. Steffens, for more than half a century an instructor in the Lima schools. Prof. Steffens said Wednesday that Judge Wanamaker was principal of the old West building about 1890 and 1891. The West building stood on the site now occupied by Central high school.

Prof. Steffens and a letter from the judge some months ago in which he spoke warmly of his friends here and said that he was contemplating a trip to Lima for

ENT FOR WALSH

Senator Boomed for
anent Chairman

ORK — (By Associated Press) — The campaign of William A. Walsh for president enters a new phase today with his arrival in New York City to take charge of his forces. Walsh, who is anticipated, the depot to greet him will be accompanied by his two daughters.

Walsh's arrival in New York will be a decided sentiment in favor of Thomas J. Walsh, leader in the oil lease campaign. It is expected that inasmuch as Walsh is virtually certain of the chief issues in the campaign, it would be a capitalization of the Walsh's nationally known name with the investigation also the feeling of the party to show Walsh this appreciation.

It was learned that the feeling between opposing Democratic factions in Missouri had become so bitter that the dry and wet delegates would travel to New York on separate trains. The dry delegates will arrive Sunday on "The Groundhog Special" and six wet delegates will get here on "The Water Spaniel Limited" a few hours later. The Kansas City contingent, generally classed as wet, will not be on either train.

Broadway theater men announced today that seats for all performances at their houses next week were being sold at the regular box office prices. A majority of the theaters reported plenty of seats yet remain.

One hundred or more alternates to the convention will have to be seated in the gallery of Madison Square Garden rather than on the convention floor. Tickets were printed for 1,334 delegates and it was discovered today that there would be 1,436. As the result the overflow will have to be put in gallery seats.

Tammany, it is announced, is organizing a "mixer" campaign with the design of "selling" Governor Smith to the convention delegates. The delegates are to be looked upon as "buyers" to whom the Tammany salesmen will extol their candidate.

Groups of Tammany members will mix with the visiting delegates in leisure hours and serve as hosts to groups or individuals on every possible occasion.

George L. Berry of Tennessee, president of the International Printing Pressmen and Assistants' Union of North America, has opened headquarters in the Waldorf-Astoria hotel from which he is directing his campaign for the vice presidential nomination.

It was learned that the feeling between opposing Democratic factions in Missouri had become so bitter that the dry and wet delegates would travel to New York on separate trains. The dry delegates will arrive Sunday on "The Groundhog Special" and six wet delegates will get here on "The Water Spaniel Limited" a few hours later. The Kansas City contingent, generally classed as wet, will not be on either train.

Broadway theater men announced today that seats for all performances at their houses next week were being sold at the regular box office prices. A majority of the theaters reported plenty of seats yet remain.

One hundred or more alternates to the convention will have to be seated in the gallery of Madison Square Garden rather than on the convention floor. Tickets were printed for 1,334 delegates and it was discovered today that there would be 1,436. As the result the overflow will have to be put in gallery seats.

Convention
Notes

NEW YORK — (By Associated Press) — Women delegates and committee women to the Democratic convention next week announced today that they would not operate as a women's bloc and would function as individuals rather than as women. Predicting that the feminine Democrats will exercise a greater influence on their convention than did their sisters at the Cleveland gathering, Mrs. Emily Newell Blair, vice-chairman of the Democratic national committee said that the women would express their opinion on the convention floor "without fear or favor." The total voting strength of the women will be 462. Quite a number of the women members already have arrived. They will have a meeting Saturday.

DRIVE TO STOP
ROAD DAMAGELocal Agencies Cooperate to
Protect Highways

A campaign to prosecute drivers of tractors and threshing outfits who are damaging state roads in the county, is to be launched by the Lima automobile club, and the division office of the state highway department.

James I. Heffner, club secretary and R. W. Fry, division maintenance engineer, made an effort Tuesday to catch the driver of a large tractor, which was reported to be damaging the Dixie highway near Beaverdam.

Before the two could come up with the man he had turned off by road and escaped.

Flanges on the iron wheels of the machine had ripped off the asphalt binder on the top of the brick. Large clods of the material was scattered along its path.

The paving was not badly damaged, but the highway department will have to put two men on the road for half a day to pick up the clods of asphalt. Otherwise each one would make a bump on the surface.

Had the pavement been made of macadam or asphalt the damage would have been much worse. Farmers and motorists are urged by Heffner to report to the department or club when they see machinery which is damaging the roads.

Remarkable Prescription of Dr. Thacher Ends Cause of Sick-Headaches, Constipation, Sour Stomach and Nervous, Run-Down Condition.

Poisoned! Made sick by neglecting to cleanse and tone the liver when it is sluggish and clogged up with poisonous waste! This is why so many wake up feeling dull and tired — tongue coated, bad taste, and offensive breath.

It explains why a sluggish liver is attended by such symptoms as Constipation, Biliousness, Sick Headaches, Sourness and Gas on a Weak Stomach, Loss of Appetite, Pains in the Back and Sides, and a nervous, run-down condition — symptoms that lead to the dangerous and

expensive sick-bed unless corrected in time.

Dr. H. S. Thacher, noted medical practitioner, perfected a wholesome vegetable prescription to keep the liver healthy. It is giving quick relief and renewed strength, energy and vigor to numbers here. This prescription, known pharmaceutically as Dr. Thacher's Liver & Blood Syrup, doesn't cost much, is pleasant to take, and contains only ingredients that are known to physicians for their corrective and health-building properties.

Try this great prescription yourself. Notice the quick difference in the way you look, eat, sleep and feel. You will be completely satisfied; otherwise, there will be no cost. Dr. Thacher's Liver & Blood Syrup is sold and recommended by Butler's Drug Store, Green's Public drug store, adv.

Rankin Starts Something

City Commissioner Rankin started something that is not finished when he attacked the proposition to accept the "gift" of the Collett-st site for the new \$500,000 city hospital in commission meeting Monday night. While Rankin stated that 50 per cent of the people are opposed to that site, we believe his figures are a little high. We do believe, however, that the majority of those who will pay for the institution are not in favor of granting the hands of Hawk creek with any such expensive structure just now. It might be a wonderful place for a hospital in 25 years, but the hospital we build now will be out of date by that time.

The city commission would do well to act on Rankin's suggestion and reconsider its action, which was taken without public notice which did not give the people, whom the commissioners represent, a chance to express approval or disapproval.

It is true that Rankin was out of order when he made the motion, so far as parliamentary law is concerned, but he certainly was in order so far as public sentiment goes. And the public is to be considered, not the personal views of four commissioners.

The row which is being stirred up over the "gift" site should be a lesson to city officials of what to expect in the future unless public opinion is sounded out in advance of action. That sort of procedure was an outstanding reason for the success of the great Teddy when he was president. He got the reaction of the public on matters before he committed himself to them and he was wise enough to drift with the wind of public opinion. And, some authorities to the contrary notwithstanding, that is what public servants are elected to do.

The city commission is in a muddle over a site, which someone wanted to donate after taking up a subscription 25,000 names long and totalling as many dollars from the public with which to pay for the donation. The next important step will be the appointment of a hospital building commission. It would be useless for us to attempt to enumerate the qualifications these five men should have. We would not be able to do it from a technical standpoint but we know that the public wants the most possible for its \$600,000. It is therefore essential that there be persons on that board who are not merely business successes or professional successes, but who are qualified to speak authoritatively when the time comes.

While the new hospital is to be a city institution, it will be open to the entire county. As a general rule we favor strict adherence to division lines in the operation of city business, but since this hospital will be one of the biggest undertakings in years, the biggest men in that line should be considered. In this connection, we would nominate Dr. Charles H. Clark, superintendent of the Lima State Hospital as a member of the building commission either as an active member or in an advisory capacity.

The standing of Dr. Clark in his profession in the United States and his experience with hospitals would make him one of the most valuable men in Ohio on such a board. We do not know what the legal phase of such a matter would be, but we believe that

some way could be found to make him a member of the board.

And, basing our opinion on his past untiring interest in this community as well as in the great institution of which he is the head, he would place at the disposal of the people of this city his valuable knowledge and would serve.

Mayor Moyer, who will appoint the commission and serve on it himself, would do well to consider this matter before making his selection of members.

Drafting Dollars

In the next war, draft dollars and property as well as soldiers, urges Bernard M. Baruch, former chairman of the War Industries Board.

It is not a new idea. Many others are advocating it. Legislation along this line recently was proposed in Congress.

If dollars were drafted for the next war, the same as men for the army, there wouldn't be any "next war."

A war without some one cleaning up big profits is beyond the powers of imagination. No chance of robbing the government on war contracts, or profiteering on the public. What would be the use of having such a war?

Our national war debt is big enough, but war-inflated prices have cost the public even more. There was the big epidemic of profiteering, you recall. Prices are down quite a bit now, but the disruption of our price level will cling for at least 30 years.

Baruch's plan for drafting wealth and property includes government fixing of all prices. He says: "prices of materials, commodities and, in fact, all things would be declared fixed as of such and such a date, and it would be illegal either to buy or sell at a different price."

"The excess proportion, if any, of the profits in industry and internal revenue would go to the prosecution of the war."

"If such an organization, which we were approaching at the end of the war, had been put into effect at the beginning, the cost of the war in my opinion would have been not more than one-half of what it was, and there would not have been charges of profiteering and economic chaos after the war."

All very true. The trouble is that the whole idea is too sensible to be put into effect.

Wedding

From the ancient Egyptians we get our custom of the wedding ring and the bridegroom's promise (usually deceitful): "With all my worldly goods I thee endow." So says Howard Carter, who dug King Tut out of the sand and oblivion.

The wedding ring of modern times is a survival of the seal to the bridegroom's treasure chests. This seal was handed to the bride to signify 50-50 ownership.

We still use the ring. But the struggle to make a living is so intense that few bridegrooms have any treasure chests. These come later—very occasionally.

Before letting your conscience be your guide be sure you have a conscience.

Being poor is no disgrace, but soon becomes very monotonous.

IODINE IN TABLE SALT

A year or so ago I threw all caution, judgment and professional propriety to the winds and printed here a formula for a kind of old age procrustator, a medicinal iodine ration, which I had lifted from a contribution in the New York Medical Journal by Dr. Adoniram J. Quimby, who, in turn, had brushed everything aside and opined that the daily consumption of a wee speck of iodine as in the formula he gave would postpone hardening of the arteries, graying of the hair and premature loss of ginger and ambition. Dr. Quimby praised his iodine mixture as a remedy for the business man, who has tried a "rest" or a "vacation" without recovering his old time pep. He urged it for the condition called "staleness." So I grabbed the recipe while it was hot and rushed it into this column, and do you know, the response was something startling. I never would have believed so many people want to stay young, and not grow gray. The unfortunate part of it was that so many old geezers whose eyesight and understanding were not what they once had been, jumped to the conclusion that I had found a prescription to cure old age, a simple rejuvenation one could "mix for himself," in short the thing which Ponce de Leon couldn't find.

In spite of all that I haven't changed my mind about the value of a suitable iodine ration for keeping one in the game. My faith in the value of iodine as a food medicine is quite as firm as it was when I broadcast. Dr. Quimby's formula. But I want to revoke that formula now. In fact I did revoke it quite a while ago, answering all requests for it with the general suggestion that ordinary tincture of iodine (iodine is simplified spelling) in homeopathic doses and the more liberal use of sea foods in the diet would answer the

requirements. To make doubly sure of this I do now solemnly revoke the formula, prescription or recipe which I ascribed to Dr. Adoniram J. Quimby in the article I published here Friday, Feb. 23, 1923, under the title "Get Your Iodine." Dr. Quimby's formula is still just as good as ever, and I am only revoking it for general use among my readers, for the reason that everybody can now obtain iodine in the right form to meet the requirements of the body in the table salt which everybody uses in seasoning and cooking food.

Use Lemons to Whiten Skin

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quarter-pint of the most wonderful skin whiteners, softener and beautifier. Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.—Ad.

FISH ARE BITING

Fish are biting down below. How, you ask me, do I know? Since I've kept within the gloom Of this busy working room. Fish are biting in the stream. Fish with silver scales agleam— Past window went a lad, Holding high the string he had.

Fish are biting fast today Where the willows bend and sway.

Fleecy clouds are drifting by; Painting pictures in the sky; There is many a golden dream Dancing up and down the stream For a youngster reared my gate With his pole and can of bait.

Glancing thru my window pane, Head high, trudging down the lane. Came a small boy, good to see. Just like one who used to be. But a glimpse was all I had. Of that proud and happy lad, Still it was enough to know Fish are biting down below.

Fish are biting down below. How, you ask me, do I know? I can tell you what you'll see. Name you every bird and tree, Tell you where the big ones lie Waiting for the worm or fly— Past my window went a lad, Rich with joy which once I had. Copyright, 1924.

How to build up your Weight

To be under weight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-

cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-

blood-cells, you begin to become plus. That's why S. S. S., since 1876, has meant to thousands of underweight men and women, a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

pose and prevent goitre. Such a salt is now on the general market, procurable from good grocers anywhere, at the usual price of free running salt. It contains 0.02 per cent of sodium iodide, and tastes and looks like ordinary salt.

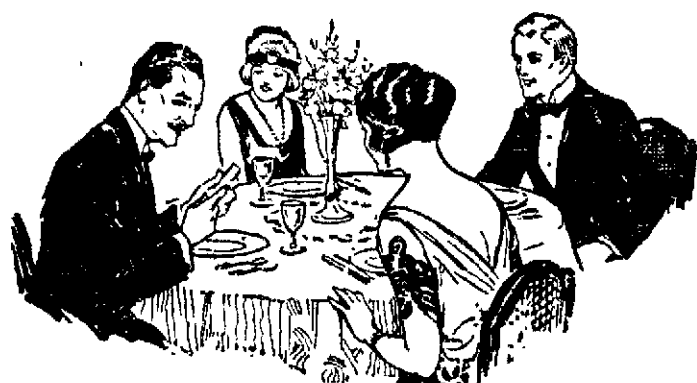

I recommend such salt as an excellent means of providing the necessary iodine ration.

"The White Sister" with John Lillian Gish, which is being shown for the final time Thursday at the Sigma theatre, stands as one of the truly great motion pictures. It is a perfect visualization of F. Marion Crawford's widely read story, told in all its dramatic intensity and filmed in Italy against the backgrounds described in the original story.

ie Quilna

a story familiar to mil-lion book lovers the world-over, the Lion-Hearted, pictorial-romance based on Walter Scott's novel, "Ivanhoe," has been shown at the Quilna last half of the week. Production is said to in-clude something new in the picture world. Although it is a complete narrative in itself, it is a gap in the story of "Hood," which proved a hit and shattered attend-ance records in every section of the country. Combined with Fairbanks' picture it is a comprehensive record of historical period when Edward the Lionhearted was on the throne until his return to the story of the Lion-Hearted's adventures in Palestine, which was the story of an epic and the seal of romance.

ular care has been evinced in the selection of the "Richard, the Lion-Hearted" and directors, in the star, were of one opinion that Richard should be played by a man whose convincing impersonation in the same role as Fairbanks' "Robin Hood" won him great praise. It is rumored that Douglass Fairbanks' name does not appear in the line-up. Kathleen Hughes, the role of Queen Isabella, and Marguerite de la Roche as Lady Edith.

At The Sigma

"The White Sister," starring Lillian Gish, which is being shown for the final time Thursday at the Sigma theatre, stands as one of the truly great motion pictures. It is a perfect visualization of F. Marion Crawford's widely read story, told in all its dramatic intensity and filmed in Italy against the backgrounds described in the original story.

Lillian Gish rises to supreme heights in the film. Her portrayal of Angela is the best thing she has ever done and stamps her as a real genius of the screen.

An actual eruption of Mt. Vesuvius, which occurred early in 1923, is shown. Molten lava, flowing down the side of the mountain is pictured with the mouth of the crater belching forth its deadly fumes and fire. On top of this comes a flood, with an entire town being wiped out.

"The White Sister" is a picture worth seeing. It was made entirely in Italy and was directed by Henry King. A Bray Cartoon is an added feature on the program.

NAVY DISASTERS TAKE BIG TOLL

More Lives Lost in Accidents Than in War

WASHINGTON — (Special) — More than twice as many navy men have been killed by accidents since the armistice as died in action on American ships during the war.

For the World War years, 1917 and 1918, the total was 467. With the disaster on the battleship Mississippi June 12, the post-war toll reached 981.

During the war the navy lost 10 vessels—a cruiser, a gunboat, a submarine, a collier, two destroyers, two trawlers and two yachts.

Since the war it has lost nine—eight destroyers and one tug.

Indeed, peace-time tragedies in the American navy always have been frequent and formidable in proportion, both as to numbers and the amount of damage done.

A list of outstanding accidents for 20 years.

Turret explosion on battleship Missouri, 1904; killed, 31.

Boiler explosion on gunboat Bennington, 1905; killed, 34.

Turret explosion on battleship Kearsarge, 1906; killed, 6.

Turret explosion on battleship Georgia, 1907; killed, 6.

Bursting of boiler tube on cruiser Tennessee, 1908; killed, 5.

Blowout of breech block on cruiser Charleston, 1910; killed, 8.

Boiler explosion of battleship Delaware, 1911; killed, 8.

Shooting of destroyer, Woolsey by a shipping board vessel off Panama, 1921; killed 16.

Loss of naval tug Conestoga in the Pacific, 1921; drowned, 43.

Point Honda disaster, 1923, in which, through a wrong change in his course, the commander of a destroyer squadron piloted seven vessels on the rocks of the southern California coast, death toll, 22.

Turret explosion on battleship Mississippi, 1924; killed, 48.

QUERY: What, if anything, is the matter with the American navy? Why are accidents so numerous? Faulty construction, or material? Or carelessness, or deficient training, on the part of personnel?

The answer, as responsible Navy Department officials give it, is this:

"Of course there is a specific

61 STOLEN MAIL BAGS FOUND

Part of Railway Bandits' Loot is Recovered

BONDS, CASH IN POUCHES

Eleven Persons Held in Robbery Near Chicago

CHICAGO — (By Associated Press) — Much of the \$2,000,000 loot obtained in the holdup last Thursday night of a Chicago, Milwaukee railroad special has been recovered and Chicago police expect to find an additional substantial quantity today.

Enough evidence has been obtained to justify charging the eight men under arrest in connection with the holdup with the robbery and the three women as accessories, according to the police. Three other men are sought.

Sixty-one mail bags, containing \$100,000 worth of non-negotiable securities and \$5,000 in bills taken in the holdup have been recovered. The last item apparently having been overlooked by the bandits.

A check of pouches recovered indicates that the bandits took a package containing \$700,000 in Liberty bonds shipped from a New York bank to St. Paul; more than \$500,000 in Liberty bonds of denominations smaller than the \$1,000 bonds in the New York package and approximately \$100,000 in currency.

J. H. Wayne, one of the suspects, found with five bullet wounds and thought to have been shot during the holdup, was reported dying.

IRENE CASTLE LEAVES NEW YORK FOR PARIS

NEW YORK — Mrs. Irene Castle McLaughlin sailed today aboard the liner France for Paris.

Just before leaving the movie star and dancer said that she was "thru dancing and the movies forever."

Frederic McLaughlin, of Chicago, her husband, declined to pose with his wife aboard the upper deck, saying it "might be too obvious why she is giving up dancing."

Just as the two were about to part Mrs. McLaughlin turned to her husband and asked:

"Do you have that?"

The "that" turned out to be a book entitled, "Getting Ready to Become a Mother."

MRS. DOWNING IS HONORED AT PARTY

Among the post nuptial affairs complimenting Mrs. Donald Downing who was before her marriage on June 9, Miss Mildred Galt, the informal bride party given Tuesday evening by Mrs. Edna Stolzbach and Miss Ruth Wells at Mrs. Wells' home, 101 W. Elm.

Three tables were filled for card games and at the close of play, Miss Helen Metcalf held high score. Mrs. Downing was presented a gift. The hostess served a two course luncheon, assisted by Mrs. W. F. Wells.

Guests were: Miss Mildred Galt, Miss Lona Galt, Miss Margaret Simpson, Miss Helen McGinnis, Miss Helen Hunter, Miss Hope Hollister, Miss Selma Wenzelbaum, Mrs. Donald McGinnis of Cincinnati, and the guest of honor.

Mrs. Donald McGinnis is entertaining at a one o'clock luncheon at the Hotel Norval, Friday evening. Mr. and Mrs. Edward Lenz are entertaining at bridge for Mr. and Mrs. Downing.

Mrs. Howard Hinn and two children, who made the guests of Mrs. Hinn's parents, Mr. and Mrs. James E. Duffield, W. North St. for a week have returned to their home in Cleveland.

Mrs. F. W. Steinhagen, S. Ken Ilworth, left Monday for Columbus, where she is spending a few days with her mother, Mrs. C. E. Husted.

SUSIE SMART'S ADVICE

Dear Miss Smart:

Could you suggest a way to build or construct an altar in a room for a home wedding. Just give me the idea and I will do it. I am not at all sure about it.

Would you suggest a menu for a wedding dinner? Not too elaborate but a fine dinner.

Should an invitation be sent to the minister and his family?

Will you suggest some music that might be played and sung at that time?

KATHRYN.

It is always attractive to construct a temporary altar in front of the fireplace. I might suggest using some tall palms in front of the fireplace, combined with baskets of garden flowers, or whatever flowers you wish to use. If there is a large window in the living room, you will not arrange the palms and flowers on either side of that.

I might suggest the following: fruit or crab meat cocktail, fried chicken, potatoes, peas, head lettuce salad with thousand island dressing or a fruit salad if you have the crab meat for the first course) and for the last course, ice cream and of course, wedding cake. Instead of the fried chicken, you could have chicken-a-la-king, with the French fried potatoes.

An invitation to the wedding dinner or whatever festivities follow the ceremony, is usually sent to the minister and his wife.

Usually the favorite songs of the bride or bridegroom are sung before the marriage.

Among those usually chosen are "O Promise Me" by De Koven, "I Love You Truly" by Carle, "The Love Song" by De Koven, "The Love Song" by De Koven, "The Love Song" by De Koven.

Dear Miss Smart:

May I ask you a few questions?

How many years is high school? I should like to become a nurse.

Is it all right to write to a boy out of town if you are unacquainted? He writes like a very nice boy.

How old should a girl be to get married in Michigan?

What could I do to make my eyes clearer? Is it all right to use eye drops?

What do you think of a girl that wants to be a nurse but who is away, is always talking about you?

How is my writing? What should I do to improve it?

LOVIN SAM.

At the local hospital training schools just one year of high school is required that is the work of one year four credits. There are, of course, many training colleges where a high school certificate of graduation is required.

No indeed. If you are not acquainted with a boy it would be absolutely wrong to carry on a correspondence with him. Wait until you have met him and know him well.

A girl must be 21 years of age in Michigan to be married. She must have the consent of her parents.

Visiting applied very gently. Consider very good for the eyes.

Yes.

I would think that her training ship is of little value. Why not go to the city and tell her that you can be friends if she is going to talk about you and bring your confidence. If she keeps up your friendship evidently means nothing to her, and she would pay no attention to her whatsoever. She isn't worth it.

Your writing is good. Perhaps you could write a little smaller.

Dear Miss Smart:

I am a girl in the seventh grade. I would like to know which course would be suitable for me to take next term. I have a choice between commercial and general but do not know which to take.

Do not very much and think I do not do well if I took the commercial course. I have to decide now. What is your advice?

Thank you very much. I will think the best thing you can suggest in this manner is to consult your teachers. She would give you advice of your talents. I am the writer or any suggestions with you.

Miss Yvonne Faze, reader, and Miss Mildred Osman, pianist, will give a musical Friday evening at eight o'clock at the Blue Tickle school house. Included in the evening's program will be a number of readings, musical readings and piano solos.

AIR RACE IS WON BY BELGIUM

3 U. S. Entrants in International Contest Defeated

BRUSSELS. — (By United Press) — The Belgian pilot, DeMuyter, was officially declared winner in this year's Gordon Bennett cup race today. He achieves success in this event for the third successive season and becomes permanent holder of the cup.

DeMuyter, piloting the Belgica, landed at Saint Abb's Head, in Berwickshire.

Previous reports that he had landed near Brighton apparently were unfounded.

DeMuyter travelled the greatest distance from Brussels, where the race started Sunday. The Frenchman Laporte was second.

All of the contestants now have landed.

There were three American entries and none figured in the money.

W. G. Vanorman, piloting the Goodyear, landed at Amsterdam, while Captain H. E. Honeywell, in the Ibis Sam, came down on the French coast and Major Peck in the S 14, landed in Belgium.

THE trouble of oiling—and the trouble that comes from forgetting to oil a motor—both done away with. The motor of the Premier Duplex is ball-bearing—runs smoothly and powerfully for years without oiling. Famous for the efficient double action of powerful suction and motor-driven brush, that gets all the dirt.

Convenient Terms.

U. S. SHOWS GAIN IN POPULATION
1,162,000 Increase Reported
in Last Half of 1923
DEATH RATE VERY LOW
1,778,750 Annual Gain During
Past Four Years
NEW YORK—(By Associated Press)—The population of the United States totaled 112,826,000 on Jan. 1, 1924, according to estimates announced today by the National Bureau of Economic Research. This compares with 110,826,000 on Jan. 1, 1923, and the census count of 107,711,000 on Jan. 1, 1920.
The most remarkable gain was recorded in the last half of 1923, the net increase being 1,162,000, a greater growth than in any other half year during the last two decades, and probably greater than any six months' period in the nation's history. The gain for the entire year was 1,948,000.
The bureau estimates the population of the continental United States for each half year since Jan. 1, 1920, to have been approximately as follows:
Jan. 1, 1920 107,711,000
July 1, 1920 108,422,000
Jan. 1, 1921 109,133,000
July 1, 1921 109,844,000
Jan. 1, 1922 110,555,000
July 1, 1922 111,266,000
Jan. 1, 1923 111,977,000
July 1, 1923 112,688,000
Jan. 1, 1924 113,399,000
All figures after Jan. 1, 1922 are necessarily tentative, for the bureau of census has not yet published complete monthly data for births and deaths covering the periods since 1921.
Improved methods of estimating the nation's population for the years following the census count in 1920, were developed by the bureau of economic research in continuance of its studies of income in the United States, and the relation of income to population.
The process evolved by the bureau is based on the "registration" theory and takes into consideration all elements of error disclosed in previous work, and the results attained by it are believed to approximate very closely actual figures.
In announcing the figures to night Dr. Willford I. King, under whose supervision they were gathered, said:
INCREASED JUMPS.
"The fact that the rate of increase in population during the decade of 1920 to 1924 was considerably less than the corresponding rate during the previous ten years led many persons to anticipate that in the future we might look forward to a rate of population expansion considerably lower than experienced during the last century.
"Such expectations have been rudely shattered by the events of the last four years, and especially by what occurred during the last half of 1923, in which period the rate of population growth appeared to have been greater than in any other half year during the last two decades, and probably greater than in any six months within the history of the nation.
"This unusual increase was due to two facts. First, a very heavily recorded excess of immigration over emigration, which increased our population by 505,000; and second, by the fact that the death rate was as low as has ever been recorded.
"According to the estimates of the national bureau of economic research, there were about 1,238,000 births against some 621,000 deaths, giving a net natural increase of about 617,000. This number added to the 505,000

NEW GOVERNOR OUSTS 147
Chinese Official Begins Re-
gime by House-Cleaning
EXCITING DAY WITNESSED
Dismissed Men Swear All
Sorts of Vengeance

TSINGTAO, China—(By Associated Press)—Governor Kao En-hung's "big stick" regime, which began recently with the dismissal of 147 department officials and advisers, gives promise of further interesting days in Tsingtao's usually placid existence. Having pacified the police, who were on the verge of mutiny because of three months arrears of pay, the new governor and his staff are on the alert for threatened counter attacks by the ousted ones.
The historic administration building, over which the flags of Germany, Japan and China have floated, never witnessed a more exciting day than that of the recent political house-cleaning. Governor Kao began operations at 8 a. m. on an unheard of thing, and the dismissed employees left swearing all sorts of vengeance. The erstwhile director of general affairs, who was the ring-leader in the sallies upon the public treasury, admitted to the new administration that there was not a copper turn over and refused to surrender his records and files. He succeeded in slipping out of the city after having once been stopped by the police.
After the police had been paid their arrears of salary, the governor was astounded to receive word that the police chief had resigned, investigation showing that he had been bribed by a wealthy Chinese, who had made a fortune in illicit opium trade, and who wanted to block any inquiry. The governor gave both men a limited time in which to remove themselves from his jurisdiction.
The sole survivor of the former administration is D. T. Lin, director of forestry and agriculture, an American trained specialist in his department.

THOMAS FRAZIER DIES.
WAPAKONETA—Thomas Frazier, 79, Civil war veteran, and Chaplain of Kyle post G. A. R., died at his home five miles east of this city Tuesday. He is survived by two daughters and one son, Mrs. Otto Buchana, Mrs. Elmer Smith and Charles Frazier, all residing near Wapakoneta. Funeral services will be held Thursday at 2 o'clock at the M. E. church in Unionopolis. Burial in Greenlawn cemetery.

Your motor is rated for certain power. Now you can have it. Power—speed—flexibility. New pleasure for driving. And save 30% of what gas costs you a year!

Note curve on chart

In the chart above we give you two important bits of information. Note the column of type at left-hand side of the chart. That tells the requirements gas must meet to give real power, real flexibility. Because all gas is made up of combustible units. The first 10% of them should give quick starting. The second 10%—flying pick-up. The rest, solid pulling-power, speed, mileage.

Now note how the curve of PUROL performance coincides at every point with the ideal requirements! It gives the combustible units needed. That's because it is refined to specifications built on actual motor needs.

30% savings proved

Gas that gives full power also reduces upkeep in general. And the other way around. For two years our engineers have tested PUROL—in 38 different cars. Records of these tests prove:

That PUROL gives 3.3% greater mileage. That PUROL burns cleanly—saving 14.2% of the fuel that usually drips down into the crankcase. That is the way PUROL saves \$2.98 a year on lubricating oil. And through the greater efficiency of undiluted lubricating oil, saves \$10.33 a year in general repairs.

The average car used 500 gallons of gasoline a year. Thus the first two PUROL savings—87% of the fuel that usually drips down into the crankcase at 20¢—are \$17.50. The four together show a yearly saving of \$30.81. 30% of the average gasoline expense!

Now you make a test

In a year PUROL will show you a saving of 30%. But you can test its greater power-performance in an hour's driving. Make such a test next time you need gas. You'll fairly feel the new response from your motor.

Get PUROL at any Pure Oil Service Station, or of any Pure Oil dealer. You'll know them by the pumps painted "Pure Oil blue."

And PUROL quality never varies. Whenever or wherever you get it, you'll get this same efficient performance.
